COMMITTED EXPERTS TNG consultants are invited into a network of experts that have extensive EMR and EHR experience and are able to provide top notch oversight and commitment to ensure every project's success. We enable a streamlined and hassle-free process for healthcare organizations looking to implement electronic health records. Our mission is to help healthcare providers improve patient care and efficiency by simplifying the EHR implementation process.

INDUSTRY VETTED With TNG's consultant ownership model, clients receive direct access to the most talented and accomplished professionals in the industry, ensuring maximum value at minimal cost. All TNG consultants undergo rigorous vetting before joining our ranks, guaranteeing exceptional skill levels across all service areas.

CLIENT TESTIMONIAL

"I was lucky to work with Rafael in our busy Emergency Department. He trained me during the go-live phase of physician order entry.

Rafael's knowledge and excellent communication skills were the key to making the whole process efficient and stress free.

Our hospital decided to retain a small team of go-live staff for some additional training. Our group of physicians unanimously voted for Rafael."
